**Subject:** DTE 01-33: AT&T Request for Waiver

To the Pooling Administrator,

AT&T requested two specific thousands-blocks in order to accommodate the needs of its customer, a large office supply company. NeuStar denied AT&T's request because AT&T had not met the months-to-exhaust requirement. AT&T requested a waiver from the Department.

Based on confidential and proprietary information submitted to the Department as part of its waiver application, AT&T has demonstrated that it cannot meet its customer's needs from its existing inventory, and that this inability does not result from AT&T having used its numbering resources in an imprudent manner.

Therefore, the Department directs NeuStar to assign two thousands-blocks to AT&T in the Brockton rate center, in the following ranges: 2000-2999 and 3000-3999.

Please do not hesitate to contact me if you have any questions.
